- 

## EDUCATION:

Queensland University of Technology

Graduated: December 2019

Bachelor of Information Technology (Computer Science)

GPA: 6.292

---

## EXPERIENCE:

### Junior Web Developer

Australian Warranty Network | Full-time

Jan 2020 – Present

### Capstone Web Application Developer

Metro North Hospital and Health Service | Student

Mar 2019 – Nov 2019

---

## PROJECTS:

- **Portfolio (Angular)**
    - An Angular 10 application to introduce who I am, and to showcase my current skills and projects
    - Consumes the GitHub REST API to retrieve user and user repositories information
  - **Bethel PC Web Application (Angular/.NET Core REST API)**
    - Another Angular application designed to meet the needs of the Bethel Presbyterian Church. I saw a need of a web presence and applied my previous knowledge
    - The application was paired with a .NET Core REST API with authentication, authorization, POST and GET requests for Blog posts
-
